Education

University of Washington Bothell | Bothell, WA   *September 2021 – June 2022*
Graduate Certificate in Software Design & Development (GPA: 3.7/4.0)

University of Washington | Seattle, WA   *September 2015 – June 2019*
Bachelor of Arts in Communication

Skills

Languages: Java, C++, C, HTML, CSS, JavaScript, Python, SQL
Frameworks: Node.js, React.js, Express.js
Developer Tools: GitHub, MySQL, Heroku, VS Code, Figma

Projects

Workout Creator | HTML, CSS, JavaScript, React, Express, Node.js, MySQL
- Developed a web application for users to plan out workout programs. Users can select from a premade list of exercises or create their own if signed into a user account. Signed-in users can also save workouts for edits down the line and toggle between a dark and light mode.
- Utilized a client-server architecture with a custom-made REST API for persistent storage of exercises, workouts, and users.
- Created the front-end with React, and the back-end with Express, Node.js and MySQL, as well as deployed the entire application on Heroku.

listentogether | HTML, CSS, JavaScript, Spotify API
- Created a web application that allows Spotify users to connect their accounts and create shared playlists out of the mutually-saved tracks.
- Developed with HTML, CSS, and JavaScript with use of the Spotify API

NBA Web Scraper | Python, BeautifulSoup
- Used Python to create an automated script that emails a report on the NBA—such as a summary of the previous day's games and a collection of news items and discussion posts from a forum—every morning.
- Developed with BeautifulSoup, a Python library for html-parsing, and automated with crontabs, a UNIX-based job scheduler.

Experience

Aerotek | Seattle, WA   *June 2019 – May 2020*
Recruiter
- Performed recruiting activities for clients in the Seattle area, such as—but not limited to—sourcing and screening candidates, coordinating interview processes, and formulating passive recruitment strategies
- Engaged in inside sales functions by prospecting leads and transforming potential candidates into clients
- Provided excellent customer service to candidates, hiring managers and contractors to build long-lasting relationships with clients and enhanced candidate/contractor experience with the agency

University of Washington | Seattle, WA   *September 2017 – June 2019*
Teaching Assistant
- Lectured on topics related to the University's Informatics programs—such as web development, database querying, and project management—and guided students through the basics of HTML, CSS, and SQL.
- Ensured the successful completion of the curriculum by all students by leading multiple class sessions a week, coordinating group projects, proctoring quizzes, grading essays/assignments, and providing constant communication outside of class through email, office hours, social media groups, and individual check-ins.
